

# Enterprise Impact Assessment

Visit [IronsidesGroup.com/CognosAnalytics](http://IronsidesGroup.com/CognosAnalytics) to get started.

## BE PREPARED

Ironsides's Enterprise Impact Assessment is designed specifically for businesses to understand how Cognos Analytics will effect your user's experience.

See how user workflows will change, identify what features you rely on will be different or discontinued, and define an application migration roadmap that connects what you know now to the new world you'll be entering.

## FEATURES

- ▶ User Experience Analysis
- ▶ Feature Change Identification
- ▶ Role-based User Grouping
- ▶ Level of Effort Assessment
- ▶ Private or Public Education
- ▶ Application Migration Roadmap
- ▶ Process Improvement & Optimization

## TOP TIP

"Find out what matters to your users most & plan ahead when implementing changes. Create a smooth transition between technologies & users who are motivated to adopt new systems."

-Scott Misage, Director of BI at Ironside
